

### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jenny Chen on May 13, 2009.

The application has been amended as follows:

In claim 16, line 5, deleted "and is the only antibody in the test patch".

2. The following is an examiner's statement of reasons for allowance:

The instant claims define over the prior art of record because the prior art of record, specifically Clemmons fails to teach or make obvious a test kit comprising a first strip having a labeled antibody specific for the analyte and a second strip for receiving a test sample where the second strip is configured to be separable from the first strip and wherein after contacting the first strip with the second strip and then separating them, the labeled antibody bound to any analyte in the sample moves from the first strip to the second strip enabling detection of the signal.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
